John Toma Habashy Rasla

Food Quality Control Engineer

johntoma84@gmail.com · +20 155 546 5062 · Al Warraq, Giza, Egypt · linkedin.com/in/john-toma-15983621b

PROFESSIONAL SUMMARY

Quality Control Engineer with hands-on experience in the food industry, holding a Bachelor's degree in Agriculture (Quality Management, Grade A) and a strong background in food safety systems such as HACCP and GMP. Skilled in inspecting raw materials, monitoring production lines, and ensuring full compliance with food safety and hygiene standards — with hands-on experience across bakery products of all types. Committed to maintaining product quality, driving continuous improvement, and upholding the highest standards of food safety across all operations.

WORK EXPERIENCE

Quality Control Engineer — **Breadfast** — 2026 — Present

- Conduct routine inspections of warehouses, chillers and freezers to ensure compliance with food safety and quality standards.
- Inspect and verify incoming raw materials from suppliers, ensuring they meet company specifications and quality requirements.
- Monitor employees' personal hygiene practices and ensure full compliance with food safety and hygiene regulations.
- Perform regular inspections of production lines to maintain product quality and operational standards.
- Closely monitor the Salad and Sandwich preparation sections to ensure compliance with food safety procedures, quality standards and standard operating procedures (SOPs).
- Apply quality control across bakery products of all types, covering the flow from raw materials and dough preparation through baking, packaging and dispatch.
- Identify non-conformities and implement corrective and preventive actions when required.
- Prepare accurate inspection reports, document findings, and communicate quality issues to the relevant departments.
- Ensure compliance with HACCP, GMP and company food safety policies throughout all production and storage processes.

Quality Control Trainee — **National Research Centre** — Summer Training

- Completed hands-on training in quality control, applying food safety and quality frameworks in a research environment.

PRODUCT EXPERTISE

- Bakery products of all types — breads, pastries and baked goods
- Ready-to-eat lines — salad and sandwich preparation
